

Dept level Problem SOLVERs (GREEN Belt for Service)

CASH IN ON PROBLEM SOLVING!!

In 2022 if you are a **MANAGER OR IMPROVEMENT PROFESSIONAL** you will have to deal with business problems. Our **GREEN belt course** will increase the effectiveness of your **PROBLEM SOLVING** efforts

YOU TOLD US YOU NEED THIS!!

We asked 40 Leaders and Improvement professionals:

"If we ran courses in 2022 what kind of business problems & skills would you want us to focus on?"

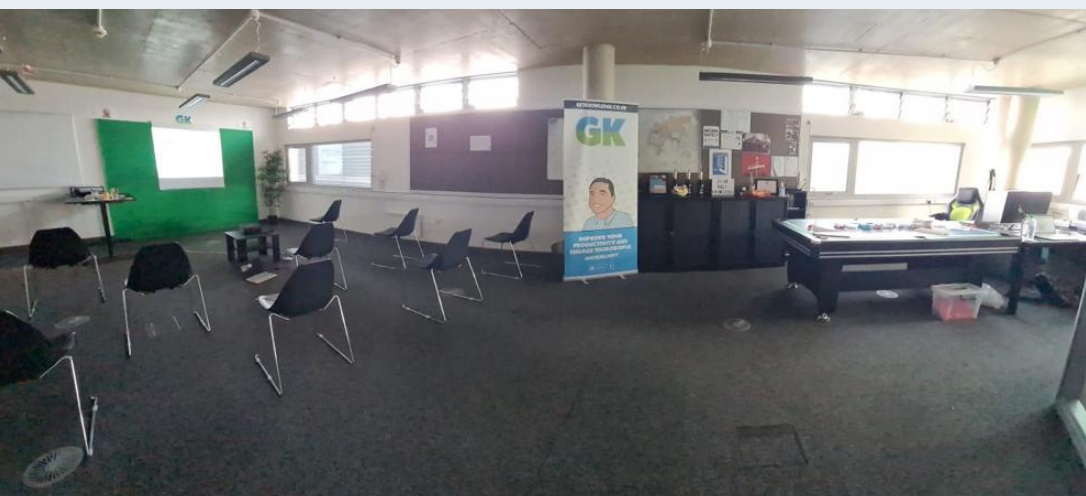

They said things like...

- Key skills to run a successful problem
- Develop metrics to improve service and identify improvements
- Fixing a gap to a standard / tactically improving
- Cross departmental collaboration
- Strong analysis of data and the ability to make better decisions

all of which are included in our **GREEN** belt courses:

THIS COURSE DELIVERS REAL BUSINESS BENEFITS

- **ROI on a specific problem** - delegates bring a project that is delivered through course completion
- **Staff Retention** - investing in your employees growth is key to keeping them around
- **Embedded Skills** - once learned, can sustain problem solving of future problems and ROI

75% of people said they would be happy to attend a face to face course

Our environment is fully risk assessed covid safe and compliant

2 BIGGEST REASONS TO NOT ATTEND...WE'VE GOT YOU COVERED

1 45% said Budget constraints

It's always a challenge to fund development. That's why we have made our course very affordable and at the same time included the delivery of a project with business benefits to alleviate this challenge.

2 24% said Time was a constraint

We're always busy, there is never an ideal time for this level of development, BUT we need to be more adaptable than ever. That's why we've structured our course to flex across a number of weeks to alleviate this challenge.

Dept level Problem SOLVERs

(GREEN Belt for Service)

Who is it for?

- Leaders/Managers who want to be better at problem solving
- Change individuals who don't have any structured problem-solving skills
- Anyone that wants to improve their problem-solving capabilities

How it works in 5 steps

1. You identify a business problem/project
2. We validate this in a virtual pre course meet up
3. You attend the course, 5 days across 5 weeks & gain the skills
4. You deliver your project and its benefits, we coach you through
5. We accredit you as a green belt and handover your certificate

Where we do it

- We deliver public courses at our Huddersfield base
- We deliver in-house courses, at your requested venue and bespoke these for the company and business needs

Here's what people are saying about our GREEN belt course

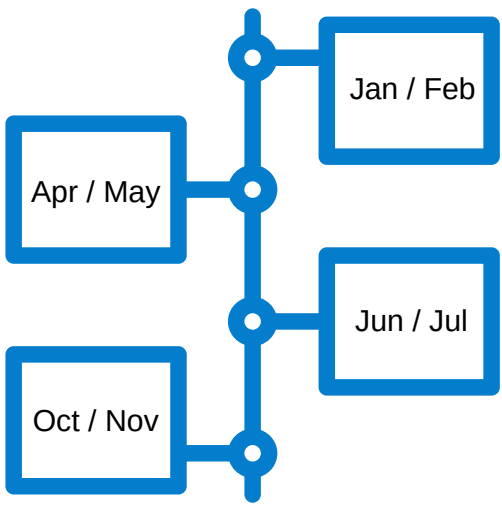

The training sessions were really interactive and so much fun - and everyone learned more than they realised at the time! We have just started our continuous improvement journey and it is early days, but already we are seeing a change in how we approach our work and our business - Sharon (Leader at Hallmark)

I thought the course we did worked really well, in fact it was the best training course I have been on! It felt structured, yet informal so didn't feel time constrained to move on to the next section if there were questions. The break in between the first and second week was good as allowed me to reflect on and absorb the learning - Scott (Improver at Yorkshire Water)

IF YOU LIKE LEGO, YOU'LL LOVE THIS!!
